

INTUITIVE.
USER-FRIENDLY.
FLEXIBLE.

The professional and free software
for the administration of your server.

 **KEYWEB**

Server. Cloud. Domains.

KEYHELP® – THE INTUITIVE HOSTING CONTROL PANEL

KeyHelp®

The hosting control panel KeyHelp makes managing your server or web hosting tariff absolutely easy. We offer you an easy-to-use server management tool with a wide range of functions, which is available free of charge in the basic version.

Thanks to the REST API, the hosting control panel KeyHelp can be connected to other programmes and therefore optimally integrated into business processes.

- ✓ intuitive & easy to use for a quick start and availability in many languages
- ✓ free management of domains, email accounts, FTP users and MySQL databases
- ✓ white label function available for your own branding
- ✓ unlimited range of functions
- ✓ Support: directly by the community in the KeyHelp forum or personally by the Keyweb support (various options)
- ✓ highest security through regular updates

Perfect for: server administrators, website operators, business collaboration, end users or resellers.

KEYHELP® PRO - ENJOY **MORE** ADVANTAGES

As a Keyweb customer, you receive all hosting products including the professional version KeyHelp Pro with additional features for even higher demands.

- ✔ no licence fees for Keyweb customers
- ✔ one-click installer for fast installation of CMS, shop systems & co.
- ✔ SSH chroot environment - for secure access regulations
- ✔ dark mode - for a special working atmosphere
- ✔ Plesk2KeyHelp tool for migrating data and settings from Plesk to KeyHelp

Not a Keyweb customer? Secure KeyHelp® Pro anyway!

You can use the KeyHelp Pro licence for 9 € per month*.

If you need support with your decision or have any further questions about KeyHelp, we will be happy to help you.
